TANDEM.MINT

SUBJECT-SPECIFIC LANGUAGE LEARNING PROGRAMME

for students of Natural Sciences and Engineering
TANDEM LANGUAGE LEARNING
IN ENGINEERING & NATURAL SCIENCES

**Tandem.MINT** gives you the opportunity to test and develop your language skills in exchange with a native speaker. As your tandem partner studies in the same field, you can discuss subject-specific topics and learn specialised language. The tandem resources provided allow you to practice the foreign language with a focus on typical academic and professional contexts in the field of Natural Sciences and Engineering.

**WHO CAN PARTICIPATE?**
- student of **Natural Sciences** and **Engineering**

**PREREQUISITES**
- proficiency in the target language of at least level **B1** of the Common European Framework of Reference (CEFR)
  - [for typologically distant languages: A2]
- German or English needs to be either the native language or target language

**TERM OF APPLICATION**
- March 15th, 2018
